Selective Marine Services

Company Profile

- **Established in 1995 in the Middle East & Gulf region, registered in British Virgin Island and Seychelles has now grown to be a regional company, with offices in U.A.E., India, Singapore, Nigeria, China, Malaysia, France, The Netherlands, and Libya, meeting the growing demand and challenges of oil & gas and shipping industry.**
- **Over the past 20 years, Selective Marine Services has established itself as the leading & fast growing international player in rig management & refurbishment, ship repair & maintenance, conversion projects, and offshore & engineering.**
- **We are confident that with this experience and expertise, we can provide our customers safe, efficient, reliable, flexible, and economical services for manning, management, project management, conversion and new building of Rigs.**

Vision

**To be valued worldwide by our
customers & employees as a world
leading versatile organization**

Mission

- **Selective Marine Services will set the standards for excellence in the industry, ethically, operationally & technically.**

Core Values

- **Integrity**
- **Safety**
- **Teamwork**
- **Responsibility**
- **Excellence**
- **Respect**

Commitment to the highest standards of safety, for the protection of our workforce & environment.

Management

Hilary Da Veiga

Managing Director

Co-founder of Selective Marine Services

Has vast experience of 38 years & has successfully completed many rig jack up refurbishment projects, conversions, upgrades. Has good experience in contract management. Successfully negotiating contracts for the company and was successful in bringing to fruition major contracts for Selective Marine Services.

Albinus Vaz

Operations Director

Co-founder of Selective Marine Services

Has vast experience of 34 years in change management & human capital. Plays an important role in managing & delivering various complex projects for the company. He is the key person in business excellence models, process improvements, and strategic planning.

Management

Wang Jin

Managing Director - Singapore

Over 25 years in the "Oil & Gas Onshore, Offshore and Marine Industry" with renowned presence in South East Asia and China. Strong network with renowned Shipyards & Oil Companies having overseen several prestigious projects over the years.

Suhail Alebri

Chief Operation Officer

Over 20 years of experience in "Oil & Gas Onshore & Offshore Industry" with renowned presence in ADNOC Senior Management.

OPERATION

Jayesh Lalit Asher **Chief Financial Officer**

With 27 years of experience in Oil & Gas Industry. Worked as CFO for leading companies in the industry in India. Expert in arranging project financing bridge, working capital management and structuring Joints Ventures. Handle project contracts and assignments of contracts. Liaison with International banks for funding requirements.

SANDEEP KUMAR **QHSE MANAGER / ENGINEER**

Bachelor of Science (BSc) with PCM. NEBOSH International General Certificate (NVQ-3) with Specialization in Occupational Health and Safety from NEBOSH, UK. **Diploma in Industrial Safety Management**. IMS- Auditor (ISO 9001-2015, ISO-1401-2015; OHSAS 18001-2007) from Bureau Veritas. Developed company offshore operation specific SOP's and implement on all the installation. **Coordinate QHSE Gap** Analysis by DNV & HAZTEK international (U.K.) for offshore & Corporate office. Accomplished Various pre-qualification HSE audit. Participated and successfully carried out Oil field Audit Services (OAS) on three rigs.

OPERATION

Hubert Araujo
Technical Manager

Electrical Engineer by profession. Has over 27 years in Marine & Offshore Industry.

Superintendent for new builds at renowned shipyards globally. Expert in troubleshooting and execution of electrical & electronic equipment. He has extensive experience working in shipyards in India, Middle East, and Singapore.

Clement Mascarenhas
Contracts Manager

With over 20 years of International experience in the Upstream Oil & Gas Offshore / Onshore / Shipping Industry brings in valued experience in Contracts Management in addition to Human Resources, Logistics, Operations, Planning and budgeting. Having worked for some of the Major Oil & Gas operators in the Middle East, has a strong understanding of the regions requirements.

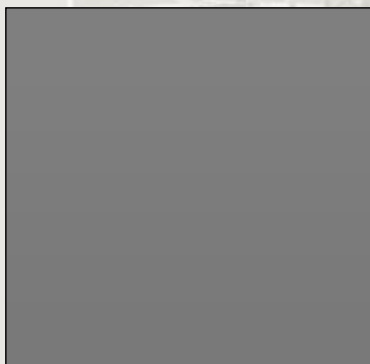

OPERATION

Vivek Surendra Verma **Operations Manager**

Vivek brings to the company More than 28 years of hands on exposure in the entire gamut of activities related to drilling operations of the oil & gas exploration sector, out of which last 10 years has been in senior managerial capacity. Worked in various positions for Operators like ONGC, Reliance Industries, Adani Wellspun Exploration Ltd. Equally good Experience as Drilling Manager/Rig Manager for Rig Contracting companies. In short good experience of working both for Operating Companies & well as Rig Contracting companies.

Mohammad Ramadan Abdullah **Operations Manager**

Worked in various positions for Operators like EDC (Egyptian Drilling Company), EDC Maersk, Gulf Drilling International, (ADES) Advanced Energy System Egypt and Saudi . Well Experienced from OIM to Drilling Manager/Rig Manager for Rig Contracting companies in the Middle East. And well experienced as HSE Instructor and conducted training for Operations safety.

OPERATION

Marcus Daniel.
Operations Manager – Nigeria Division

Operations Manager Nigeria Division.

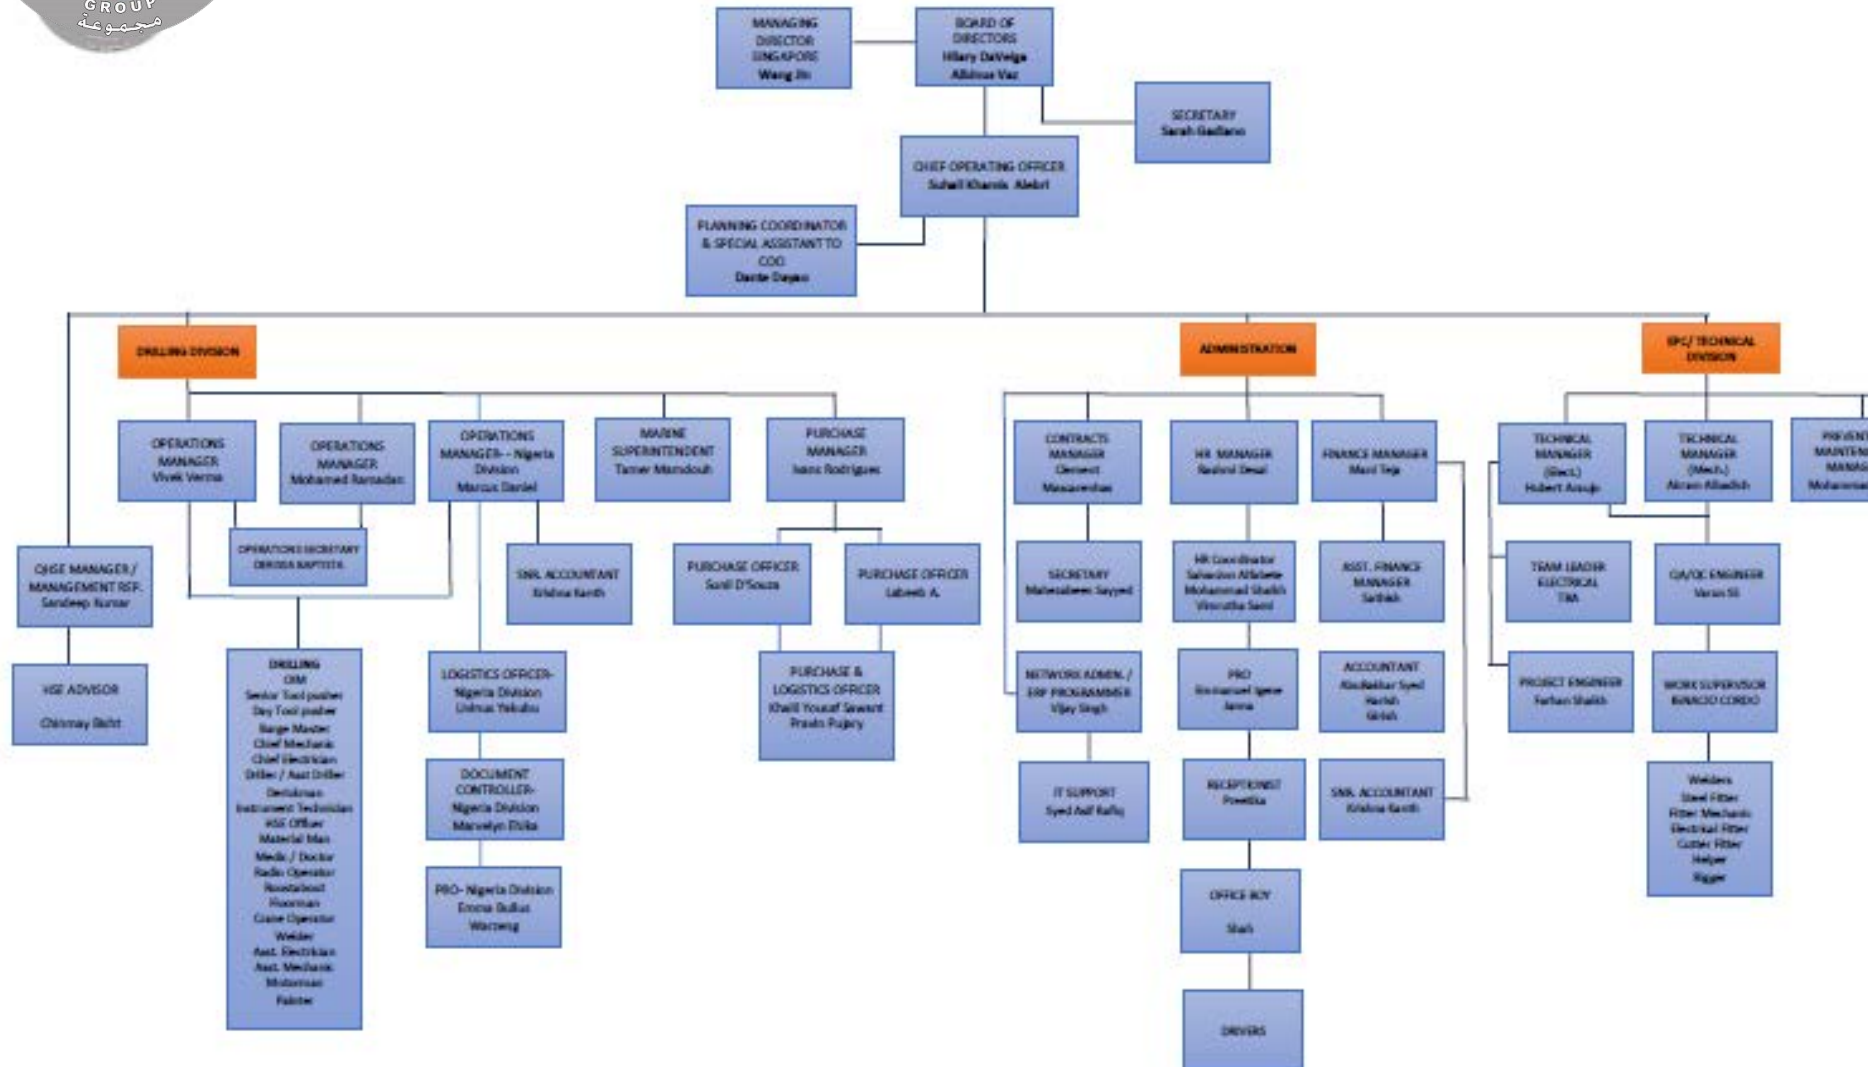

M. Engr. by profession, has worked on offshore/onshore International and Locally with over 28 years' experience in the oil and Gas Industries, expertise in Drilling, Completion, Production, well intervention, rig management.

Brings to the team knowledge of drilling management and operations of drilling rigs.

SMS GROUP ORGANIZATION CHART

Update

Quality, Health, Safety & Environment (QHSE)

- To be the safe & efficient management provider of choice to the oil industry
- Crew Safety is our Top Priority
- We are ISO 9001:2008, ISO 14001:2004 (EMS) and OHSAS 18001:2007 certified
- Implementing continual improvement system to achieve improvements in overall HS&E performances

HEALTH, SAFETY AND ENVIRONMENT POLICY

Selective Marine Services is committed to achieve and maintain HSE excellence by protecting our people, communities in which we operate, and the environment. Emphasis will be placed on ensuring human health, operational safety, environmental protection and community goodwill. This commitment is in the best interests of our customers, employees, contractors and the communities in which we work.

HSE excellence will be achieved through corporate leadership, within the framework of our HSE-MS and continual measured improvement. We require active commitment to and accountability for HSE from all employees and contractors.

We are committed to:

- Protecting, and ensuring the health and safety of people within our organization and at our work sites.
- Minimize our environmental foot print through pollution prevention, reduction of natural resource consumption and emissions and reduction and recycling of waste.
- Prepare for, respond to, and recover from any emergency, crisis and business disruption.
- Set targets for improvement and specific measurement criteria to evaluate and report HSE performance.
- Ensuring compliance with all applicable HSE regulatory requirements.
- Manage HSE as any other critical business activity.
- Prevent health and safety incidents or substandard practices by managing our asset integrity.
- Promoting sustainability, corporate responsibility and the welfare of our workforce.
- Provide our employees with the appropriate HSE training and development for ensuring sustainable business practices.
- Managing risk through effective mitigation and controls thus minimizing the impact to our operations and businesses.
- Holding all levels of management, and employees accountable for HSE performance.
- Empower all employees and contractors to intervene and stop any unsafe work without fear of repercussions.
- Require service providers to manage HSE in line with this policy.

Project & Engineering Division

- Selective Marine Services has diversified into in-house engineering division with competent & highly motivated team of Engineers
- The Project & Engineering Division offers a wide range of services for the oil & gas service industry
 - With a dedicated leadership to achieve highest quality & customer satisfaction our team is comprised of hardworking, skilled personnel who are committed to achieve undoubting task with quality deliverance
 - Wide range of services include:
 - a. Rig inspection
 - b. Electrical
 - c. Mechanical
 - d. Instrumentation & electronics
 - e. Drilling equipment
 - f. Jacking system (MLT type rig)
 - g. Project management
 - h. Fabrication

Project & Engineering Division (Rig Inspection)

- Selective Marine Services has a comprehensive rig inspection module to suit requirements of owners to upgrade/new construction/revival works on the rigs
- Selective Marines Services' inspectors are highly qualified drilling & maintenance personnel with on hand experience in running & managing of rigs & inspections
- Rig inspection helps to reduce downtime, increases reliability & safety of equipment

Project & Engineering Division (Electrical & Instrumentation)

- Installation and troubleshooting, software development & commissioning of Fire & Gas Protection system
- Designing of Total Integrated system (PLC, HMI, VFD), hot redundant, cold redundant, input channel redundancy
- Designing, Selection, Commissioning of Jack Up Rig Equipment's (Jack up VFD, Top Drive, Draw works, Mud pumps) using Siemens Modular VFD systems.
- Designing of Server Redundant SCADA for Drill Monitoring System using Siemens System HMI, Wincc SCADA (including Temperature monitoring, Pressure monitoring system, Alarm Management system).
- Designing & Commissioning of DG Synchronization system (Semi Auto, Auto, Manual mode), Power management system.
- Designing & commissioning of Machinery space alarm monitoring and control.
- Single line diagram
- Cable routing layouts
- Power and control cable schedules/ drawings
- As-built project drawings / documentation
- SCR Switchboard / Emergency switchboards trouble shooting
- PA / GA system installation and troubleshooting

Project & Engineering Division (Electrical & Instrumentation)

- Designing and software development of control system and troubleshooting of the following PLC
 - Make: Siemens -S7-200, S7-300, S7-400, S7-1200, S7-1500 series, S7300F (Distributed safety plc), DP/ASI master, PCS7
 - Make: Rockwell - Micro Logix, SLC, Control-Logix
 - Make: Toshiba-T2E series
 - Make: Schneider Electric-Modicon M340, Modicon Quantum
 - Make: Direct logic(KOYO) DL 305 series
 - Make: Mitsubishi-FX Series
- Designing & software development For following SCADA systems:
 - Make: Siemens-Wincc SCADA, OP, KTPXXX, TPXXX, KPXX series, TIA portal
 - Make: Schneider Electric-Citect SCADA, Vijeo designer for HMI.
- Engineering & commissioning/ trouble shooting of the following drives
 - Make: Siemens
 - Sinamics G110, G120, G130, G150, V50
 - Sinamics S110, S120, S130
 - Simoreg DC Master 6RA22, 6RA24, 6RA70, Sinamics DCM (DC Master)
 - Master drives VC/MC, Micromaster 420, 430, 440, Simodrive
 - Make: ABB- ACS800

Project & Engineering Division (Mechanical)

Generator engines (4-stroke, 2-stroke)

Top drive

Mud pumps

Centrifugal pumps

Compressors

Air tuggers

Anchor winches

Deadline anchor

Water makers

Sewage treatment plant

Oily water separator

Oil purifier

Mud agitator

Aircon & refrigeration

Project & Engineering Division (Drilling Equipment)

Crown block
Travelling block
Pipe spinner
Iron roughneck
Handling tools
Design & fabrication of king post
Koomey unit
Ezy torque
Rotary table
Shale shakers
Centrifuge
BOP hoisting system

Project & Engineering Division (Jacking System)

- Selective Marine Services offers complete solution for jacking systems
- Electrical systems, motor overhauls
- Jacking gear rating, gear renewals
- Skidding systems, gear renewals
- Competent team having executed major jacking jobs under ABS class

Project & Engineering Division (Project Management)

MODU Oritsetimeyin – Lagos (Nigeria)

Reactivation and Commissioning

Overhauling and function testing of all Drilling Equipment.

Servicing, repairs and certification of Life Saving Appliances & Fire Fighting Appliances.

Jacking System overhauling.

Overhauling & Servicing of Engines and other machinery.

Installation, Trouble Shooting & Commissioning of E&I equipment.

Hydro blasting, Steel Renewal and painting of the Hull & Legs.

Project & Engineering Division (Project Management)

MODU SMS MARIAM– ADNOC Abu Dhabi

Drilling & Workover Operations

Complete Rig Management & Maintenance, including:

Drilling & Work Over Operations

Personnel

Material, Drilling Tools & Spare parts

etc

Project & Engineering Division (Project Management)

- **MODU - Noah's Ark Upgrade**
- Complete project management carried out on Noah's Ark
- Renewed 1600 tons of steel
- Extensive jobs done on legs, spud cans
- Complete jacking system repairs carried out
- All equipment serviced in-house
- All electrical, mechanical & drilling equipment servicing & commissioning

Project & Engineering Division (Project Management)

- **MODU - Teras Titanium Upgrade**
- Complete project management carried out on Teras Titanium
- Renewed 1300 tons of steel
- Extensive jobs done on legs, spud cans
- Engineered & relocated newly-fabricated helideck
- Complete jacking system repairs carried out
- All equipment serviced in-house
- All electrical, mechanical & drilling equipment servicing & commissioning

Project & Engineering Division (Fabrication)

- Selective Marine Services has an in-house workshop of certified class welders & fabricators
- In-house design & fabrication of kingpost
- In-house alternate option for raw water systems design approved by ABS class & installed on 2 rigs
- Structural fabrication
- Piping fabrication

Global Presence

Our Strength

- **Highly experienced management and people with domain knowledge of offshore rig operations with firm commitment to safety**
- **In house team of experts with experience of renovating and rejuvenating offshore rigs/vessels**
- **Have a professional and targeted approach for customer satisfaction in offshore Rig Management, Rig Refurbishment & Project Management with several years of experience with various clients worldwide**
